ABOUT THE COLLEGE

The visionary Philanthropists of Sri Vidya Mandir Higher Educational Trust started Sri Vidya Mandir Arts and Science College in Uthangarai in the year 2000 with the noble aim of uplifting economically and educationally backward districts Dharmapuri and Krishnagiri into a number one educational destinations in Tamil Nadu. The College is surrounded by the culturally rich pilgrimage centers, Hanumantheertham (2 km) and Theerthamalai (15 km), associated with the famous Epic, The Ramayana. It is housed in a sprawling campus of more than 50 acres. The Queen of Mountains, the Eastern Ghats, has bestowed her bountiful nature and conducive climate around the area. The College is well connected with the nearby cities and is located in the Salem-Vellore State Highways. Currently, the college functions with 13 UG, 9 PG, 7 M.Phil & 8 Ph.D Programmes with the strength of around 4500 students and 150 Faculty Members.

The IQAC of the College was established in the year 2011. Since then, the contribution of IQAC in evolving strategies towards the orientation of learners is substantial. The College was recognized by UGC under section 2(f) & 12(B) of UGC Act, 1956 on 26th August 2013. As another mile stone in its tireless journey, the College has been accredited by NAAC with 'A' grade (CGPA of 3.27 on four point scale) on May 01, 2015. It has recently sanctioned a grant of Rs. 45 lakhs through Fund for Improvement of Science and Technology (FIST) scheme by the Department of Science and Technology (DST), Government of India towards the research infrastructure development of the College. Moreover, our college has been selected for Unnat Bharat Abhiyan (UBA) scheme by the Ministry of Human Resource Development, Government of India for extension activities of the villages.

ABOUT THE FDP

Quality in education and research can be accomplished only by means of enshrined quality management (QM) or quality assurance (QA) in Higher Education Institutions (HEIs). Moreover, today's ever increasing number of students indulge HEI staff to ensure that academic curricula and teaching methods constantly adapt to diverse expectations and a myriad of new programmes, while maintaining high levels of educational quality standards. With universities facing perpetual change, a merely descriptive and retrospective type of quality control is certainly not sufficient. Hence, the HEIs are progressively keen to explore and establish a more comprehensive type of dynamic and systematic quality enhancement (QE) by which evaluation consistently triggers improvement. Through intelligent communication and steady engagement, modern quality management is to lead to an overarching quality culture in HEIs.

Successful quality enhancement requires more than a consensus on the goals to be achieved. In order to implement a long-lasting quality assurance framework, several pillars have to be aligned: efficient internal review, a sound concept for data collection, a clear strategy for indicator-building, an in-depth analysis of results, perfectly integrated procedures from evaluation to problem-solving, creative thinking, cooperative and fair communication. If quality is to permeate all levels of the HEI, the concepts, methods and procedures must be accessible and understandable to all stakeholders. To achieve this in coherence with external standards and reviews, a lot of expertise is required. This two day National Level Faculty Development Program on Teaching, Learning and Research (QETLR) will facilitate the opportunity to meet experts from various HEIs and to get to know their respective approaches to quality education & research. Learn from experts who know your problems from first-hand experience. They will be happy to share their insights with you.

OBJECTIVES OF THE FDP

The FDP is planned to enhance the quality in teaching, learning and research among the Faculty members in an interactive and exercise based activity with the following objectives:

- Quality enrichment of faculties to cope up with NAAC Reforms
- Outcome Based Education (OBE) implementation towards effective teaching, learning and research
- To gain familiarity with current phenomena and to achieve new insights in research
- To motivate and influence others to work cooperatively toward achieving organizational, team and individual goals
- To assess potential and real barriers to successful use of interpersonal skills and set development objectives
- To explore importance and key characteristics of effective interpersonal skills in the workplace
- To use strategies to successfully overcome tense situations and restore confidence in teaching and research
- To contribute to teaching and achieving of core performance, standards and outcomes
- To develop multi-personality students, including physically, intellectually, socially and emotionally
- To develop analytical and innovative attitudes and skills so as to facilitate change and increase the effectiveness and efficiency of the students
