About the College

The visionary Philanthropists of Sri Vidya Mandir Higher Educational Trust started Sri Vidya Mandir Arts & Science College in Uthangarai in the year 2000 with the noble aim of uplifting economically and educationally backward districts Dharmapuri and Krishnagiri into number one educational destinations in Tamilnadu. The College is surrounded by the culturally rich pilgrimage centers, Hanumantheertham (2 km) and Theerthamalai (15 km), associated with the famous Epic, The Ramayana. It is housed in a sprawling campus of more than 50 acres. The Queen of Mountains, the Eastern Ghats, has bestowed her bountiful nature and conducive climate around the area. The College is well connected with the nearby cities and is located in the Salem - Vellore state highways. Currently, the college functions with 13 UG, 9 PG, 7 M.Phil. & 8 Ph.D. programmes with the strength of around 4500 students and 150 Faculty Members.

The IQAC of the College was established in the year 2011. Since then, the contribution of IQAC involving strategies towards the orientation of learners is substantial. The College was recognized by UGC under section 2(f) & 12(B) of UGC Act, 1956 on 26th August 2013. As another milestone in its tireless journey, the College has been accredited by NAAC with 'A' grade (CGPA of 3.27 on four point scale) on May 01, 2015. It has recently sanctioned a grant of Rs. 45 lakhs through Fund for Improvement of Science and Technology (FIST) scheme by the Department of Science and Technology (DST), Government of India towards the research infrastructure development of the College. Moreover, our college has been selected for Unnat Bharat Abhiyan (UBA) scheme by the Ministry of Human Resource Development, Government of India for extension activities of the villages.

About the Departments

The Departments of Botany and Zoology were established in the year 2015 - 2016 and recently in the year 2018 - 2019 they have upgraded into Post Graduate Departments. The Departments have been providing quality education towards achieving cent percent result and securing Gold Medals and Rankings in University Examinations. The Departments have well equipped with advanced instruments and other necessary facilities for conducting practicals/ experiments for students and organized many scientific programmes for the welfare of young aspiring minds. The Departments have well qualified and experienced Teaching Faculty Members with rich academic and research knowledge. They have written many books and published research articles in various referred national and international journals.

About the Conference

The exploration of new scientific technologies is in phase with the accelerated growth of world population and economic growth. These new technologies certainly facilitate numerous opportunities towards sustainable development meanwhile with critical challenges. In this context, this International Conference on Innovative Techniques in Agricultural and Biological Sciences for Sustainable Development will create a forum for disseminating knowledge in diverse aspects of Agricultural and Biological Sciences as they have a crucial impact in almost all the domains of human life.

Agricultural Science provides ideal information pertaining to the research and technology of soil science, genetics, cropping systems, soil-plant interaction, livestock production, agricultural economics and grain marketing for the sustainable and economical development of the nation. Biological Science deals about the life and living organisms, their life cycles, adaptations and environment under the umbrella of biochemistry, microbiology and evolutionary biology. These two scientific areas play a vital role towards the economic growth of a country. Hence, this International Conference will provide a platform for eminent experts, researchers, students and delegates to exchange their innovative ideas and experiences in the field of agricultural and biological sciences.

Objectives of the Conference

- To provide exposure to young researchers about recent advancements in the field of agricultural and biological sciences.
- To facilitate a platform for scientists and researchers to share their research findings.
- To motivate researchers to transform their findings for industrial growth.

Themes of the Conference

- Plant breeding and crop improvement
- Microbes and its products for sustainable agriculture
- Plant microbiology and plant pathology
- Soil environment and microbial activity
- Agricultural biotechnology
- Biodiversity
- Bio Nanosciences
- Microbial biotechnology
- Biofertilizer
- Biochemistry
